EDUCATION

Master of Artificial Intelligence: Machine Learning Expected in 12/2027
RMIT University - Melbourne, VIC
• Current GPA: 3.1

Bachelor of Information Technology 12/2025
RMIT University - Melbourne, VIC

Summary

Currently pursuing a Master's in Artificial Intelligence at RMIT University, Melbourne, with a strong foundation in Information Technology and hands-on expertise across AI, NLP, data analytics, and full-stack development. Key achievements include building the Milly Artificial Translator , alongside developing practical web apps and websites for real-world solutions. Complemented by front-line customer service experience in Melbourne, a fast-learning mindset, and an energetic, collaborative spirit that thrives in diverse, multicultural environments.

Skills

- **Programming Languages:** Python, Java, TypeScript, JavaScript
- **AI & NLP:** Gemini API, Large Language Models (LLMs), Natural Language Processing (NLP), Prompt Engineering
- **Web & Frameworks:** HTML5/CSS3, JavaScript Frameworks (React / Node.js / Express...)
- **Tools & Version Control:** Git, GitHub, VS Code

KEY PROJECTS

Milly Translator — Real-Time AI Translation Platform
RMIT Capstone Project | Developed for an Australian Public Hospital
• Took primary ownership of integrating the real-time speech-to-text, AI translation, and text-to-speech pipeline for multilingual healthcare communication.

- Designed and integrated real-time client-server communication using Socket.IO, coordinating the AI services with the application interface.
- Integrated Google Gemini, Google Cloud Text-to-Speech, Node.js, TypeScript, Ionic React, and audio-processing components into a low-latency translation workflow.

Hoa Vien Phuong Nam Web Application — Commercial Client Solution

Freelance Client Project | Production Web Application

- Owned the end-to-end design, development, deployment, and maintenance of a production web application for a restaurant business.
- Translated real operational requirements into digital workflows covering menu management, reservations, events, administration, inventory, and customer-facing interfaces.
- Served as the primary technical owner, handling implementation decisions, production deployment, troubleshooting, and continuous maintenance.

Alibaba E-commerce Website — Full-Stack Web Development

Academic Web Development Project | HTML, Bootstrap, Node.js

- Took primary responsibility for the application's full-stack implementation, connecting the customer-facing interface with server-side business logic.
- Developed responsive commerce interfaces using HTML and Bootstrap, with Node.js/Express powering server-side functionality and application workflows.
- Implemented core e-commerce flows and contributed to the structure of a multi-role system supporting customer, vendor, and delivery operations.

YouTube Discourse & Audience Network Analysis

RMIT Academic Project Competition | Python, NLP & Network Analysis

- Processed 12,002 comments across 16 videos, leveraging VADER, LDA topic modeling, and network analysis to uncover key discussion themes and audience engagement patterns.

Experience

Front of House Staff Member

08/2024 to 02/2025

Sushi Jiro – Melbourne, VIC

- Provided exceptional customer service, ensuring a welcoming atmosphere for all guests.
- Assisted in food preparation and presentation, maintaining high standards of quality and cleanliness.

Front of House Supervisor

02/2025 to 01/2026

TGI Fridays – Melbourne CBD, Australia

- Delivered attentive table service in a high-volume CBD restaurant while maintaining speed, accuracy and professionalism.
- Coordinated with front-of-house and kitchen teams during busy services to respond to guest needs and keep operations moving.

- Managed competing priorities calmly, building strong customer service, teamwork and communication skills in a multicultural workplace.
